

Happy Halloween,

It is difficult to believe that next week will be November. Thank you again for what you do every day for our students. Below is the Good News Report.

### **Bonnieville**

Bonnieville Preschool parent Michelle Berry has made an adorable preschool quilt with footprints of all the preschoolers on the quilt. Thank you, Mrs. Berry.

Bonnieville's Jr. Beta Club celebrated Founder's Day by participating in a day of kindness. Students made positive posters and cards that they distributed throughout the school in addition to creating kindness chains. Bonnieville has also had a pumpkin decorating contest. There were some ghoulish creatures in the library.

In addition, presale yearbooks may also be purchased through Friday, November 1, with the cost being \$25.

### **Cub Run**

Cub Run is celebrating One Hart...One Goal...Drug Free week. All students dressed in red to kick off the week.

Cub Run also had a very successful Fall Festival. The "Slime the Teacher" event was the largest hit. Mr. Jason Haycraft's class raised the most money, and he had the joy of being "slimed." I agreed to be slimed ONLY if the school raised over \$500 in a special collection for a new playground. Mission was accomplished, and yes, you guessed it, I was "slimed."

### **HCHS**

Congratulations Hannah Williamson. Hannah has earned Microsoft Office Specialist 2016 certifications in Word, Excel, and PowerPoint.

Rylie Blanchet and Mackensie Walters both received 18th District All-Season Team and Madison Ratliff received 18th District All-Tournament Team.

The HCHS Raider FFA Trap Team placed first in State competition. Congrats, FFA Trap Team, Raider State Champs!!

We wish our Raider Band the best of luck at Mid-America in two weeks. They had a great performance during regional competition.

### **LeGrande**

This week, students at LeGrande have been celebrating Red Ribbon Week with dress up days, anti-drug information at morning meeting, and fun activities. Thanks to Lowe's and LeGrande FRYSC, LeGrande ASAP leaders, student council, and Cardinal Club were given the opportunity to "Plant the Promise" which involves planting red tulip bulbs on school grounds. In April when they bloom, we will be reminded of the beauty of a drug free life. Students in these groups also planted pink tulip bulbs in the memorial garden in memory of Mrs. Delk and in honor of Breast Cancer Awareness Month.

LeGrande is also celebrating along with Mrs. Beth Spann this week as she learned that she passed her national boards. Way to go Mrs. Spann!!

LeGrande night custodian, Rusty Branstetter, recently taught 8th graders about pollination and the importance of bees to our ecosystem. Mr. Rusty owns and operates Bella's Bees, where he raises bees for honey and other products.

The LeGrande boys' basketball team was the runner up in the preseason tournament.

4 LeGrande 8th graders began their journey with Teen Leadership this month. We are very proud of their accomplishments!!

Students in 4th grade recently learned about local government thanks to a field trip sponsored by the Hart Co. Public Library.

LeGrande Title I and the LeGrande Library are currently planning a trick or read event along with several community partners. All LeGrande students will participate in this event where they will trick or treat for books and other literacy based items.

## **Memorial**

Memorial celebrated Red Ribbon Week last week and one of the events on Thursday was the annual Faculty/Student Ballgame. For the FIRST time in recent history, the STUDENTS defeated the teachers in a very close game. Fortunately, for the teachers, Nurse Pauline was on hand to provide first aid for the old folks! Everyone had an amazing time at this ballgame!

Last Friday, Memorial's PTSA hosted the annual Fall Festival. While there were two other fall festivals going on in the county on the same night, the PTSA still managed to raise over \$12,000 for Memorial Elementary! Mr. Poynter states, "We could not operate without our PTSA, and we are so grateful for their hard work and support of our school."

## **Munfordville**

Munfordville is also celebrating Red Ribbon week. Students are excited about the different "themed" day such as twin day and don't-be-scared day,

Munfordville Elementary school is proud to be recognized for 1 of 20 Kentucky schools for extraordinary growth and academic progress on a first Commissioner's List. Twenty schools have had at least a 10-point gain in proficiency from 2017-2018 to 2018-2019 and received a Very High label for the growth indicator (elementary/middle schools) or the transition indicator (high schools) in 2018-19. Lewis will be presenting the principal of each school with a certificate for its growth progress in the coming weeks. Munfordville Elementary is proud to be a 4 star school.

Enjoy the rest of the week,

Nathan
