Parent or Guardian's Declination on Religious Grounds to Required Immunizations

The Centers for Disease Control and Prevention (CDC) and Kentucky Department for Public Health (KDPH) recognize immunization as one of the most effective tools in preventing disease and reducing the risks associated with exposure to certain diseases. KRS 214.036 requires parents who object to immunization of their child to provide a written sworn statement objecting to immunization of the child on religious grounds.

Place an "X" in a box or boxes to the left of each disease, listed below, for which you object to your child receiving the immunization. Initial and date the box on the right.				
$ \Box $	Hepatitis B: According to the CDC and KDPH, serious symptoms and effects of this disease include: jaundice (yellow skin or eyes), life-long liver problems, such as scarring and liver cancer, or death.		Initials

	confusion, seizures (jerking and staring), high fever, nausea and vomiting, sensitivity of eyes to light, hearing loss, pneumonia, brain damage, or death.		Date	
Due to my religious beliefs, I object to my child receiving the required immunizations selected above. I am aware that if I change				
my mind, I can rescind this objection and obtain immunizations for my child. Initials
